### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification, at page 1, line 6, after "2002", insert:

-----, and now U.S. Patent Number 6,730,411 -----.

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: No prior art has been found or presented that either teaches or fairly suggests the of a two-part adhesive comprising "(a) an adhesive part being a mixture formed from (I) an ethylenically unsaturated monomer selected from the group consisting of acrylate ester monomer, methacrylate ester monomer, or mixtures thereof, (II) a metal molybdate, (III) an ethylenically unsaturated carboxylic acid selected from the group consisting of acrylic acid, methacrylic acids or mixtures thereof, wherein said adhesive part is substantially free of a metal salt of an ethylenically unsaturated carboxylic acid; and (b) an activator part which includes a free radical generator," as herein recited and claimed. The

reference to Righettini is cited of interest to show typical reactive adhesive compositions similar to that claimed herein. The monomeric constituents differ, as shown by the Abstract. Since there are no other issues regarding the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
